Plant Name	Height & Spread	Evergreen or Deciduous	Description	Photo
Carolina Jessamine *Gelsemium sempervirens* ***(Moderately drought-tolerant once established)***	Grows 15-20 feet	Evergreen Hardy to 20 degrees	Shiny, light green leaves. Trumpet-shaped yellow flowers in spring. Usually deer-resistant. **Deer rating: 8/10**	
Star Jasmine *Trachelospermum jasminoides*	Grows 15-20 feet *Yellow Star Jasmine **blooms light yellow** and handles colder temperatures (to around 5 degrees)	Evergreen Hardy to 20 degrees	Trailing, dark green leaves and fragrant, white flowers in summer. Takes sun or some shade. May burn in cold temps. **Deer rating: 5/10** ***needs protection until out of reach of deer**	
Madame Galen Trumpet Vine *Campsis x tagliabuana 'Madame Galen'* DROUGHT TOLERANT once established	Grows 15-25 feet	Deciduous Hardy to minus 30 degrees	Green leaves and showy orange/red trumpet-shaped flowers in summer and fall. Loved by hummingbirds and other pollinators. **Deer rating: 5/10** ***needs protection until out of reach of deer**	

Clematis Vine *Clematis*	Grows 20-30 feet	Deciduous Hardy to minus 20 degrees	Green leaves and large, showy flowers in spring. May repeat bloom. Flowers can be purple, pink, or white. **Deer rating: 5/10** ***needs protection until out of reach of deer**	
Honeysuckle Vine *Lonicera* DROUGHT TOLERANT once established	Grows 20-30 feet	Deciduous Hardy to 0 degrees	Dark green to blue-green leaves. Elongated, sweet-smelling flowers in late spring. Loved by hummingbirds. Flowers can be pink, white, purple, or yellow. **Deer rating: 5/10** ***needs protection until out of reach of deer**	

Wisteria Vine *Wisteria* DROUGHT TOLERANT once established	Grows 25-30 feet	Deciduous Hardy to 0 degrees	Feather shaped, green, elongated leaves. Cascades of blue to purple flowers in spring. May repeat bloom. **Deer rating: 5/10** ***needs protection until out of reach of deer**	
Boston Ivy *Parthenocissus tricuspidate* ***(Moderately drought-tolerant once established)***	Grows 30-50 feet	Deciduous Hardy to minus 40 degrees	A true climber. Green, three-lobed leaves resemble poison ivy. Leaves turn brilliant orange-red in fall. Insignificant greenish-white flowers. A favorite for showy fall color. **Deer rating: 5/10** ***needs protection until out of reach of deer**	
Virginia Creeper Parthenocissus quinquefolia ***(Moderately drought-tolerant once established)***	Grows 30-50 feet	Deciduous Hardy to minus 40 degrees	Similar to Boston Ivy, but with leaves of five. Turns brilliant red and purple in fall. Can grow on a variety of surfaces as it can fasten to bark and even rock. **Deer rating: 5/10** ***needs protection until out of reach of deer**	
DROUGHT TOLERANT once established

→ this symbol indicates plants that can survive drought once established. It takes 1-2 years of regular watering for a plant to be fully established. In general, plants will look better with regular water, but drought-tolerant plants can survive times when water is not available.
