

Plant Name	Height & Spread	Evergreen or Deciduous	Description	Photo
Oleander Tree <i>Nerium</i> 	10-15 feet tall 10-15 feet wide 	Evergreen Hardy to 20 degrees	Long-blooming flowers from early summer until a frost. Flowers red, pink or white (white grows fastest and largest). Toxic when ingested. Deer rating: 10/10	
Pineapple Guava Tree <i>Feijoa sellowiana</i> 	12-15 feet tall 12-15 feet wide 	Evergreen Hardy to 15-20 degrees	Attractive silvery-green foliage year-round. Red and white tropical flowers in spring, tasty edible fruit in December. Drought-tolerant and usually deer-resistant. Deer rating: 8/10	
Photinia Tree <i>Photinia fraseri</i> <i>(Moderately drought-tolerant once established)</i>	12-18 feet tall 12-18 feet wide 	Evergreen Hardy to 10 degrees	Tree with year-round interest. New growth emerges bright red, matures to dark green. Puffs of white flowers in spring. Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)	

<p>Green Japanese Maple <i>Acer palmatum</i></p> <p>'Bloodgood' and 'Emperor 1' varieties have red leaves spring-fall</p>	<p>15-18 feet tall 15-18 feet wide</p> 	<p>Deciduous</p> <p>Hardy to minus 10 degrees</p>	<p>Artistic branches and deeply lobed, light green leaves. Lovely fall color varies year to year ranging from pink to orange-yellow to red. <i>By late summer, some leaves may crisp from extreme heat & sun.</i></p> <p>Deer rating: 8/10</p>	
<p>Crape Myrtle Tree <i>Lagerstroemia indica</i></p>  <p>*there are dwarf varieties as small as 6-12 feet, and large varieties as big as 30 feet</p>	<p>12-20 feet tall 12-20 feet wide</p> 	<p>Deciduous</p> <p>Hardy to 20 degrees</p>	<p>Green leaves turn orange-yellow red for fall, incredible summer blooms, & interesting bark. Delicate crepe-like flowers can be white, red, purple, or pink.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	 <p>Lee Torrani</p>
<p>Little Gem Magnolia <i>Magnolia grandiflora 'Little Gem'</i></p> <p>(Moderately drought-tolerant once established)</p>	<p>15-20 feet tall 7-10 feet wide</p> 	<p>Evergreen</p> <p>Hardy to 10 degrees</p>	<p>Somewhat tropical-looking tree. Dark green, glossy foliage with brown undersides. Large white flowers in summer. Can be pruned to have a lollipop shape.</p> <p>Deer rating: 8/10</p>	

<p>'Prairie Fire' Flowering Crabapple <i>Malus x 'Prairie Fire'</i></p>	<p>15-20 feet tall 12-15 feet wide</p> <div data-bbox="313 164 486 327"> </div>	<p>Deciduous Hardy to minus 20 degrees</p>	<p>Dusky-purple tinged foliage and reddish-grey bark. Covered in bright pink flowers in spring. Produces small fruits that attract birds. Too bitter for humans. <i>'Spring Snow'</i> variety has white flowers.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	
<p>Eastern Dogwood <i>Cornus florida</i></p> <p>*handles full sun, appreciate a little afternoon shade</p>	<p>15-25 feet tall 15-20 feet wide</p> <div data-bbox="313 749 486 912"> </div>	<p>Deciduous Hardy to 0 degrees or below</p>	<p>Large, showy flowers in spring. Flowers are pink or white, depending on type. Leaves turn orange, red, and/or pink in fall. Red berries mature in fall.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	
<p>'Krauter Vesuvius' Flowering Plum <i>Prunus cerasifera</i> <i>'Krauter Vesuvius'</i></p> <p><i>(Moderately drought-tolerant once established)</i></p>	<p>15-25 feet tall 15-20 feet wide</p> <div data-bbox="313 1347 486 1510"> </div> <p>*dwarf variety <i>'Purple Pony'</i> grows 12-15 feet tall/wide</p>	<p>Deciduous Hardy to 0 degrees</p>	<p>Purple leaves emerge bright red-purple and darken to darker purple. Showy pink-purple blooms in early spring. Produces small, red cherry-like fruit with age.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	

<p>Strawberry Tree <i>Arbutus unedo</i></p> <p></p>	<p>15-25 feet tall 15-25 feet wide</p> <p></p>	<p>Evergreen Hardy to 20 degrees</p>	<p>Dark green leaves and reddish bark. White bell flowers in late fall become yellow, orange, and red edible fruits. Fruits are seedy but sweet.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	
<p>'Okame' Flowering Cherry <i>Prunus 'Okame'</i></p>	<p>15-25 feet tall 15-20 feet wide</p> <p></p>	<p>Deciduous Hardy to 0 degrees</p>	<p>Green leaves emerge after amazing display of rosy-pink spring flowers. Leaves turn yellow-orange-red for fall. Red-bronze bark more vibrant in winter.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	
<p>Paul's Scarlet Hawthorn <i>Crataegus laevigata</i> 'Paul's Scarlet'</p>	<p>18-25 feet tall 15-20 feet wide</p> <p></p>	<p>Deciduous Hardy to minus 30 degrees</p>	<p>Rose-red flowers in mid to late spring. Flowers become bright red berries that hang on through winter, adding color when there are no leaves.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	
<p>Olive Tree <i>Olea</i></p> <p></p>	<p>20-25 feet tall 15-20 feet wide</p> <p></p>	<p>Evergreen Hardy to 20 degrees</p>	<p>Slow-growing tree can be fruitless or fruiting. Silvery-green leaves. Creamy white flowers that become green fruits which mature to black.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	

Shantung Maple <i>Acer truncatum</i>	20-25 feet tall 15-20 feet wide 	Deciduous Hardy to minus 30 degrees	Foliage emerges with reddish color, changes to dark green. In fall, the foliage gets lovely shades of yellow. Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)	
Redbud Tree <i>Cercis canadensis</i> 	20-30 feet tall 20-30 feet wide 	Deciduous Hardy to 0 degrees	Heart-shaped leaves turn bright yellow in fall. Tight clusters of flowers all over the stems and branches in spring. Flowers may be pink, purple, or white; leaves may be green or red. Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)	
Bradford Pear <i>Pyrus calleryana</i>	30-40 feet tall 20-30 feet spread	Deciduous Hardy to 0 degrees	Showy white flowers in spring. Green leaves turn yellow to red to purple in fall. <i>Some years flowers may have pungent smell.</i> Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)	

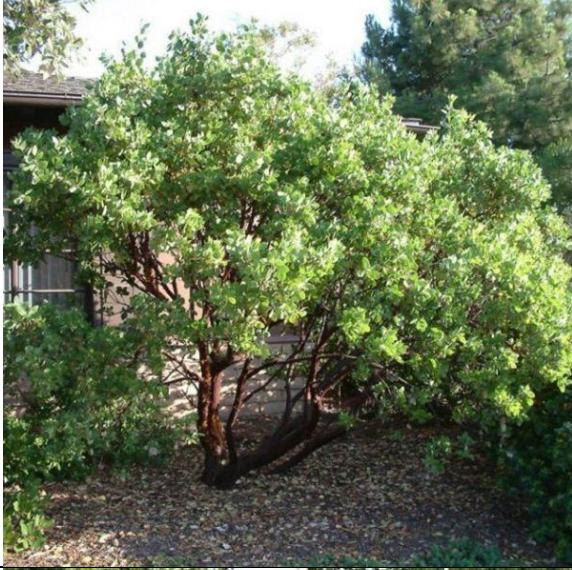

→ this symbol indicates plants that can survive drought once established. It takes 1-2 years of regular watering for a plant to be fully established. In general, plants will look better with regular water, but drought-tolerant plants can survive times when water is not available.

→ this symbol indicates plants that are considered fire-wise, meaning that they are more resistant to wildfire due to their growth habits. Plants with this symbol were found online in lists of 'fire safe' plants.

Plant Name	Height & Spread	Evergreen or Deciduous	Description	Photo
Dr. Hurd Manzanita <i>Arctostaphylos 'Dr. Hurd'</i>	12-15 feet tall 10-12 feet wide	Evergreen Hardy to 15 degrees	<p>Large, light green leaves contrast nicely against smooth maroon bark. Intricate form and structure. Clusters of pinkish-white bell flowers in early spring. Grows with multiple trunks which adds to unique look.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	
Western Redbud <i>Cercis occidentalis</i>	15-20 feet tall 15-20 feet wide	Deciduous Hardy to 15 degrees	<p>Tight clusters of flowers before leaves, all over the stems and branches. Flowers are purplish-pink and very showy. Green leaves are somewhat heart-shaped. Long, flat, brown seed pods and yellow fall color. Usually multi-trunk but can be trained as standard tree.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	
Mountain Maple <i>Acer glabrum</i>	20-30 feet tall 10-15 feet wide	Deciduous Hardy to minus 30 degrees	<p>Toothed green turn yellow to orange to crimson in fall. Young twigs are reddish. Greenish-yellow inconspicuous flowers. May be multi-trunk or trained to be standard tree.</p> <p>Deer rating: 7/10</p>	

<p>Quaking Aspen <i>Populus tremuloides</i></p> <p><i>(Moderately drought- tolerant once established)</i></p>	<p>40-50 feet tall 20-30 feet spread</p> <p></p>	<p>Deciduous</p> <p>Hardy to minus 30 degrees</p> <p><i>Does not like extreme heat</i></p>	<p>Powdery white bark; round green leaves flutter in the wind. Bright yellow fall color. <i>Extensive root system allows new trees to grow. Not recommended near leach field.</i></p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>	
<p>Pacific Dogwood <i>Cornus nuttallii</i></p> <p></p>	<p>20-40 feet tall 10-24 feet wide</p>	<p>Deciduous</p> <p>Hardy to 15 degrees</p>	<p>Simple oval leaves are green and turn shades of pinks, oranges, and red in fall. Large white flowers in spring. Pink- red berry clusters in fall and winter.</p> <p>Needs protection from deer until lowest branches are at least 4 feet high (out of their reach)</p>
