

Ordering Sod through Solomon's Gardens Nursery • 2021 Pricing

We can order sod through Delta Blue Grass Company! **There is a minimum of 200 square feet to order.**

Cost:

Variety	Description	Price per square foot
Bolero Plus	Fine blade, good-looking, grows slowly, handles some foot traffic, very disease resistant, heat-tolerant, somewhat drought-tolerant	\$0.75 + tax
90/10 Tall Fescue	Wide blade, more course, adapts to shade and winters well, handles heavier foot traffic, good color, low-maintenance	\$0.75 + tax
Shade Blend	Better for areas with less than 5 hours of sun exposure, slightly heat-tolerant, handles foot traffic well, can handle filtered light	\$0.80 + tax
CA Native Varieties	Best for drought-tolerance. Go to www.deltabluegrass.com to see and compare the varieties available	\$2.25 + tax

Delivery:

-Sod can usually be delivered two days after the order is placed.

-Normally sod can be delivered on Saturdays, as long as the order is in by Thursday of that week.

-We will call you the day before your delivery with an expected delivery time (usually a 2 hour window).

- Sod delivered straight to your home: \$110
- Sod delivered to the nursery (must be picked up same day): \$50
 - We may be able to help load directly into your vehicle with our tractor. This is subject to us having a tractor available, and a man to operate it. If your vehicle is too narrow to have the pallet loaded directly onto it, the sod will need to be loaded by hand. We may ask you to sign a waiver releasing us of any damage to your vehicle during loading and/or transportation of the sod.

Installation:

- Under 2,000 square feet:
 - \$450 flat rate
 - \$500 flat rate for native varieties
- Over 2,000 square feet:
 - \$0.25 per square foot
 - \$0.30 per square foot for native varieties

Before sod is delivered and installed at your home, you will need to prep the area. The ground should be graded and leveled. Next, add 1-inch of compost and rototill it in. Rake it to finish the grade. Finally, roll the entire area to compact.

Sod Starter Fertilizer: give your sod a great start!

- 16-pound bag (covers 1,200 square feet): \$19.95 + tax

In hot weather, new sod should be deeply watered 3 times per day. After one week you can reduce to once per day as it will have more established roots to catch water.
