Plant Name	Height & Spread	Evergreen or Deciduous	Description	Photo
<p>Japanese Maple <i>Acer palmatum</i></p> <p>*best in areas with morning sun and afternoon shade</p>	<p>Many varieties available:</p> <p>Smallest types are under 5 feet tall and wide</p> <p>Largest are 15-18 feet tall and wide</p>	<p>Deciduous</p> <p>Hardy to 0 degrees or below</p>	<p>Elegant trees that can be weeping or upright. Maple-shaped leaves may be full, lacy, deeply cut, small, or have other features. Leaves can be shades of green, shades of red, or variegated. Amazing fall color.</p> <p>Deer rating: 8/10</p>	
<p>Dappled Willow <i>Salix integra 'Hakuro Nishiki'</i></p> <p>*for part sun or part shade areas</p>	<p>8-10 feet tall 8-10 feet wide</p>	<p>Deciduous</p> <p>Hardy to minus 20 degrees</p>	<p>Weeping branches, striking pink stems & buds. Leaves are green with white variegation, and pink highlights.</p> <p><i>More often grown as shrub, but can be made into tree</i></p> <p>Deer rating: 6/10 *Willows grow back so quickly, they can recover quickly from deer damage</p>	
<p>Boxleaf Azara <i>Azara microphylla</i></p> <p>*for part sun or part shade areas</p>	<p>12-18 feet tall 6-8 feet wide</p>	<p>Evergreen</p> <p>Hardy to 5 degrees</p>	<p>Tree with fountain-like, arching shape. Tiny, shiny, green leaves year-round. Tiny, yellow, vanilla-scented flowers in late winter.</p> <p>Deer rating: 7/10 *may need to protect until tree is out of reach of deer</p>	

<p>Eastern Dogwood <i>Cornus florida</i></p> <p>*for part sun or part shade areas</p>	<p>15-25 feet tall 15-20 feet wide</p>	<p>Deciduous</p> <p>Hardy to 0 degrees or below</p>	<p>Large, showy flowers in spring. Flowers are pink or white, depending on type. Leaves turn orange, red, and/or pink in fall. Red berries mature in fall.</p> <p>Deer rating: 7/10 <i>*may need to protect until tree is out of reach of deer</i></p>	
<p>Tricolor Beech <i>Fagus sylvatica 'Tricolor'</i></p> <p>*for part sun or part shade areas</p>	<p>20-30 feet tall 10-20 feet wide</p>	<p>Deciduous</p> <p>Hardy to minus 20 degrees</p>	<p>Unique tree with variegated leaves that may include shades of red, pink, and purple. Leaves turn coppery for fall. Seeds produced in fall are edible. Handles sun as well, but color fades during summer months.</p> <p>Deer rating: 8/10</p>	

→ this symbol indicates plants that can survive drought once established. It takes 1-2 years of regular watering for a plant to be fully established. In general, plants will look better with regular water, but drought-tolerant plants can survive times when water is not available.
